## 📋 OBJECTIVE

I graduated from computer engineering. Now in search of an opportunity in the IT industry, where I can use my Java programming experience and learn new skills, expand my knowledge and benefit from my learning.

## ⚙️ SKILLS

C Programming  
C++ Programming  
OOP Concept  
Java J2SE  
Java JDBC  
Oracle SQL Database  
HTML/CSS/XML  
Web development  
Android Application Development

## 👍 INTERESTS

Reading  
Cooking  
Coding  
Singing  
Animation  
Real Graphic Game Play

## 🗣️ LANGUAGE

English  
Hindi  
Urdu  
Marathi  
Arabic

## 🎓 EDUCATION

**PSGVPMS D.N Patel College of Engineering, Shahada** 2022  
**Passing**

B.Tech (Computer Engineering)  
81.98%

**Kai Sau G.F Patil jr. College of Science, Shahada** 2018  
HSC  
67.08%

**Nishat hight school jr. College of Science, shahada** 2016  
SSC  
76.60%

## 📁 PROJECTS

### Shop Management System

#### Tools & Technique :

- Java J2SE
- Java JDBC
- SQL Database
- NeatBeans IDE

#### Features :

This is the desktop application fully developed by me to use Java programming language. In this project we can manage all the details of the shop. Such as product purchasing/customer data and available quantity of the product etc. We can also manage update the details and delete the details in this project. And the main feature of this project is the billing management system. And all data will be stored on our database.

### News App

#### Tools & Technique :

- Java J2SE
- XML
- JSON Parsing
- Android Studio

#### Features :

This is the Android online application fully developed by me for educational purposes. This work fetches the news from the online API and shows the android application. This is made for entertainment.

## 🌟 PROFILE SUMMARY

I am a B.Tech IT engineer by profession on Java development, Android application and project development of desktop application and coding difficult task that can solve quickly. I am a strong team player with the ability to learn and rapidly apply new technologies. I am an extremely hardworking and honest person.
